Figure 1 is a schematic diagram of a medical device interface 500. The interface includes a patient name field 562 displaying "DR. SMITHS STUDY". Below this is a control panel with "Flow Rate" and "Volume" settings. The "Flow Rate" section has two columns of buttons labeled "A" and "B". Column "A" has buttons for 1.0 and 3.0 ml/s. Column "B" has buttons for 1.0 and 3.0 ml/s. A "Hold" button is between the columns. The "Volume" section has buttons for 1.0, 15.0, 10.0, and 20.0 ml. A "KVO" button is also present. To the right, there are "Duration" and "Programmed A&B" fields. The "Duration" field shows "00:35" and the "Programmed A&B" field shows "55.0 ml". At the bottom, there are "Enter" and "Cancel" buttons. On the left side of the interface, there are two syringe-like icons labeled "contrast" and "flush" with "A" and "B" respectively, and a "KVO" button. The entire interface is labeled 500.
